

FINISHED TASKS

- ☕ Uploaded all past UH-KLM slides to Indico
- ☕ Fixed authentication issues with klm_hi_tb_manual [gitlab repository](#) and pushed latest changes
 - ☿ Visibility is "private" →
- ☕ KLM SCROD aux SRAM
 - ☿ Moved power conn. down and shrunk board height
 - ☿ Added layer showing motherboard edge in layout (coordinates extracted from MB gerbers)
 - ☿ Pushed revC to klm-sram-exp [gitlab repository](#)
 - Set visibility to "public"

BOARD MODEL (READY FOR FAB)

WIRE HARNESSES

- ☕ Finalized choices for wire harness materials
- ☕ Updated rest of bill of materials (BOM)
 - 🍪 Added links and computation of actual cost (ignore things in Varnerlab stock)
 - 🍪 Estimated cost \$6200 (but uncertainty about board assembly)

Wiring Harness							
Item	Description	Part Number	Quantity	Unit Price	Sub Totals	Order	Actual
1	Multi-Conductor Cables 12AWG 2C SHIELD	5000FE 008500	1 ???		\$0.00	FALSE	\$0.00
2	EXPAND SLEEVING 1/8" X 225' BLK	1030-PTN0.13BK225-ND	1	\$44.14	\$44.14	TRUE	\$44.14
3	HEATSHRINK FP301 1/4" BLACK	FP014K-200-ND	200	\$0.58	\$116.28	TRUE	\$116.28
4	CONN 22-30AWG CRIMP TIN	WM1114CT-ND	1,000	\$0.04	\$39.88	TRUE	\$39.88
5	CONN RCPT HSG 4POS 2.54MM	WM2002-ND	250	\$0.12	\$30.00	TRUE	\$30.00
6	HOOK-UP STRND 22AWG WHT 100'	A892219W-100-ND	3	\$53.24	\$159.71	TRUE	\$159.71
7	HOOK-UP STRND 22AWG BLACK 100'	A892219B-100-ND	3	\$53.24	\$159.71	TRUE	\$159.71
8	TAPE ELECTRIC PRINT BK 3/4"X22YD	3M158586-ND	4	\$5.16	\$20.64	TRUE	\$20.64
Total					\$570.36		\$570.36

- ☕ This was my first idea for soldering 28 leads of 22 AWG wire to a single 12 AWG wire
- 🔥 Soldering and heatshriking will be terrible

☕ This was my first idea for soldering 28 leads of 22 AWG wire to a single 12 AWG wire

☕ Soldering and heatshriking will be terrible

☕ Next plan

- ☕ use 10-12 AWG butt connector
 - 14 wires fit nicely, but need a second for next 14 wires --- still investigating what to do with the 12 AWG end
 - Would like non-insulated butt connectors so I can solder them
